Experiences

Frontend Developer at Frichti/Gorillas/Getir (full time) – November 2020 – Today

I manage all websites of Frichti (mainly frichti.co) and internal frontend applications.

Frontend Developer at Seald (full time) – October 2018 – November 2020

Contributions to the development of the company's internal applications (backend and mostly frontend). Complete development of Seald's website (seald.io), as well as the administration panel (front end) available for customers.

Full Stack Developer at My Edition Company (intern) – March 2018 – September 2018

Design of a web application to register the driving test (theory test) (La Poste). Optimization of projects in progress (internal application in React.js), back-end and front-end side.

Full Stack Developer at CRMCurve (intern) – April 2017 – August 2017

Build an application web SAAS allowing to create and edit an email without having knowledge in HTML code (Javascript / API REST / PHP). I worked alone on this project.
